### Data Notes

^Data pulled is limited to:

- Births in year noted
- Diagnosis of NAS at age 0-28 days at admission
- Patient is a resident of Florida
- Visit is not a comprehensive rehabilitation visit

\*Counts and rates suppressed for counties with fewer than 5 cases to prevent possible identification of cases

\*\*Starting in the 4th quarter of 2015, the International Classification of Diseases version 9 (ICD-9) was replaced by ICD-10. Therefore, the code used to diagnose NAS for the first three quarters of 2015 (ICD-9 code 779.5) was replaced by its equivalent ICD-10 code P96.1 beginning in the 4th quarter of 2015 and going forward. It is not yet fully understood how this change will affect counts going forward

\*\*\*Rate per 10,000 live births
