June 29, 2024 DOH-Monroe Issues Mosquito-Borne Illness Alert

Contact: Brandie Peretz Brandie.Peretz@flhealth.gov 305-563-1107

Monroe County, Fla.—The Florida Department of Health in Monroe County (DOH-Monroe) is informing residents of two confirmed cases of locally-acquired dengue fever.

DOH-Monroe and Florida Keys Mosquito Control District are coordinating surveillance and prevention efforts that include:

- Intensified door to door mosquito inspections
- Enhanced mosquito surveillance (trapping/monitoring)
- Aerial larvicide and adulticide mosquito treatments as necessary
- Truck mounted larvicide and adulticide mosquito treatments as necessary

Dengue can present as a flu-like illness with severe muscle aches and joint pain, fever, and sometimes a rash. Usually, there are no respiratory symptoms. Symptoms of dengue will appear within 14 days after being bitten by an infected mosquito. Dengue fever is not contagious but is transmitted by the bite of an infected *Aedes aegypti* mosquito.

DOH-Monroe reminds the community to avoid being bitten by mosquitoes by taking these basic precautions.

Protéjase con Repelente

Siempre lea cuidadosamente las instrucciones de la etiqueta para conocer el uso aprobado antes de aplicar un repelente.

Trate la ropa y el equipo

permetrina. No aplique

permetrina directamente

con productos que contengan 0.5 % de

a la piel.

Aplique repelente de insectos en la piel o la ropa expuestas, pero no debajo de la ropa.

Algunos repelentes no

repelente sea seguro

para los niños y

son aptos para los niños. Asegúrese de que el

apropiado para su edad.

Alrededor de Edificios

Al menos una vez a la semana, vacíe o cubra todo lo que pueda contener agua, como:

Baldes Juguetes

Piscinas Infantiles y Cobertores de Piscinas

Pilas para Pájaros

Basura, Contenedores, Recipientes de Reciclaje Cubiertas de Carroso

o Botes Canaletas

No deje que se reproduzcan los ¡Mosquitos!

Los mosquitos pueden vivir en el interior y pican en cualquier momento, de día o de noche.

The Department continues to conduct statewide surveillance for mosquito-borne illnesses, including West Nile virus infections, Eastern equine encephalitis, St. Louis encephalitis, malaria, chikungunya, and dengue. Residents of Florida are encouraged to report dead birds to the Florida Fish and Wildlife Conservation Commission's site.

For more information, visit the Department's website or view the weekly mosquito-borne illness surveillance reports. If you are experiencing any symptoms, please call DOH-Monroe at 305-317-9120.
