COVID-19 Vaccine Redistribution Requirements

STATEMENT OF FACTS AND REASONS FOR FINDING IMMEDIATE DANGER

Novel Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that can spread among humans through respiratory transmission and presents with symptoms similar to those of influenza. COVID-19 is a communicable disease with significant morbidity and mortality. As a result, it presents a severe danger to public health. In furtherance of state and federal government response efforts, the Florida Department of Health and the Centers for Disease Control and Prevention (CDC) seek to permit the redistribution of COVID-19 vaccine beyond the primary CDC ship-to-sites. Tracking the redistribution of COVID-19 vaccines in Florida is paramount to controlling this communicable disease and to ensure proper oversight by the CDC. Therefore, there is an immediate need to adopt rules setting forth the procedure for providers to request to redistribute COVID-19 vaccine in order to control the spread of COVID-19 to protect the health, safety and welfare of Florida's citizens.

STATEMENT OF AGENCY REASONS THAT PROCEDURE IS FAIR UNDER THE CIRCUMSTANCES

COVID-19 presents a public health threat to the state of Florida. The Surgeon General has declared a statewide Public Health Emergency due to the spread of COVID-19. There is an immediate need to set forth procedures for the tracking of vaccine redistribution between enrolled COVID-19 vaccine providers in the effort to control this communicable disease in the State of Florida.

64DER20-44 COVID-19 Vaccine Redistribution Requirements

(1) Prior to any redistribution of COVID-19 vaccines between COVID-19 vaccine provider sites, all COVID-19 vaccine redistributions require approval from the Florida Vaccines for Children and Adults (VFC/VFA) Program.

(2) All COVID-19 vaccine redistributions must be to providers who are fully enrolled in the Florida State Health Online Tracking System (Florida SHOTS) and the VFC/VFA Program. In addition, all providers must have completed both sections A and B of the “CDC COVID-19 Vaccination Program Provider Agreement” (09/14/2020) which is available through the provider’s Florida SHOTS account at <http://www.flshotsusers.com/>.

(3) In order to redistribute any COVID-19 vaccine product to an enrolled COVID-19 Vaccine Program outside of the provider’s organization, a provider must complete a “CDC Supplemental COVID-19 Vaccine Redistribution Agreement” (09/29/20) which is incorporated by reference and available at <http://www.floridahealth.gov/programs-and-services/immunization/COVID-19VaccineInfo/index.html>. A copy of the completed redistribution agreement must be sent to the VFC/VFA program at FloridaVFC@flhealth.gov no less than 24 hours before the anticipated redistribution.

(4) A redistribution agreement is not required if the redistribution will occur between enrolled COVID-19 Vaccine Program providers within the same organization.

(5) A Florida SHOTS Vaccine Transfer form (09/15) must be completed and signed by both the redistributing provider and the receiving provider for all vaccine redistributions. The transfer form is available through the provider’s Florida SHOTS account at <http://www.flshotsusers.com/>. The completed form must be sent to the VFC/VFA program at FloridaVFC@flhealth.gov no less than 24 hours before the anticipated redistribution.

CERTIFICATION OF MATERIALS INCORPORATED

BY REFERENCE IN EMERGENCY RULES FILED WITH THE DEPARTMENT OF STATE

I hereby certify pursuant to Rule 1-1.013, Florida Administrative Code:

(1) That materials incorporated by reference in Rule(s) 64DER20-44 have been filed with the Department of State and a true and complete paper copy of the incorporated materials are attached to this certification for filing.

- "CDC COVID-19 Vaccination Program Provider Agreement" (09/14/2020)
- "CDC Supplemental COVID-19 Vaccine Redistribution Agreement" (09/29/20)
- Florida SHOTS Vaccine Transfer form (09/15).

(2) That because there would be a violation of federal copyright laws if the submitting agency filed the incorporated materials described below electronically, a true and complete paper copy of the incorporated materials are attached to this certification for filing.

Under the provisions of Section 120.54(4)(d), F.S., the attached materials take effect upon filing unless a later time and date less than 20 days from filing is set out below.

I understand this is an agreement between Organization and CDC. This program is a part of collaboration under the relevant state, local, or territorial immunization's cooperative agreement with CDC.

To receive one or more of the publicly funded COVID-19 vaccines (COVID-19 Vaccine), constituent products, and ancillary supplies at no cost, Organization agrees that it will adhere to the following requirements:

1.	Organization must administer COVID-19 Vaccine in accordance with all requirements and recommendations of CDC and CDC's Advisory Committee on Immunization Practices (ACIP). ¹

Such records must be made available to any federal, state, local, or territorial public health department to the extent authorized by law.</p>
3.	Organization must not sell or seek reimbursement for COVID-19 Vaccine and any adjuvant, syringes, needles, or other constituent products and ancillary supplies that the federal government provides without cost to Organization.
4.	Organization must administer COVID-19 Vaccine regardless of the vaccine recipient's ability to pay COVID-19 Vaccine administration fees.

Reimbursement for administering COVID-19 Vaccine is not available under any federal healthcare program if Organization fails to comply with these requirements with respect to the administered COVID-19 Vaccine dose. CDC Supplemental COVID-19 Vaccine Redistribution Agreement

The Centers for Disease Control and Prevention (CDC) plans to ship a minimum order size of COVID-19 vaccine, constituent products, and ancillary supplies at no cost directly to enrolled COVID-19 vaccination providers throughout the United States. The federally contracted vaccine distributor uses validated shipping procedures to maintain the vaccine cold chain and minimize the likelihood of vaccine loss or damage during shipment. There may be circumstances where COVID-19 vaccine needs to be redistributed beyond the identified primary CDC ship-to sites (i.e., for orders smaller than the minimum order size or for large organizations whose vaccine is shipped to a central depot and requires redistribution to additional clinic locations). In these instances, vaccination provider organizations/facilities, third-party vendors, and other vaccination providers may be allowed to redistribute vaccine, if approved by the jurisdiction's immunization program and if validated cold chain procedures are in place in accordance with the manufacturer's instructions

and CDC's guidance on COVID-19 vaccine storage and handling. There must be a signed *CDC Supplemental COVID-19 Vaccine Redistribution Agreement* for the facility/organization conducting redistribution and a fully completed *CDC COVID-19 Vaccination Provider Profile Information* form (Section B of the CDC COVID-19 Vaccination Program Provider Agreement) for each receiving vaccination location.

The parties to this agreement are CDC and healthcare organizations, third-party vendors, and vaccination providers that redistribute COVID-19 vaccine. CDC cannot reimburse costs of redistribution beyond the initial designated primary CDC ship-to site(s), or for purchase of any vaccine-specific refrigerators or qualified containers. Therefore, organizations planning for redistribution of COVID-19 vaccine must carefully assess the associated risks and costs (e.g., vaccine loss due to temperature excursions, purchase of vaccine-specific portable refrigerators and/or containers) before planning this activity.
